Computer Maintenance & Repair

Computer Maintenance & Repair

- ➔ PC Repair Service – No Fix, No Fee
- ➔ Fixed Cost Laptop Repair
- ➔ Upgrade Installation Service
- ➔ Virus Recovery
- ➔ PC Health Check & AVG Security Suite
- ➔ Data Backup & Recovery
- ➔ Internet Set-Up
- ➔ Telephone & Broadband Connection from £19.99
- ➔ Printer, Camera & Optical Media Set-Up
- ➔ PC Cleansing & Disposal

PC Repair Service	We will diagnose the problem with your PC and recommend any action or parts required. The cost covers the repair time however long it takes. If we can't fix the problem, there's no fee.
Fixed Cost Laptop Repair	We will supply and install the parts required to repair your laptop for a fixed fee. If the laptop is beyond economical repair we will say so and return it to you free of charge.
Upgrade Installation Service	Installation of an upgrade (Hard Disk, Video Card, Optical Drive and Floppy Disk) which will improve the performance of the PC and configure any additional drivers required.
Virus Recovery	We will scan your PC for viruses and remove any that are found on your system. We can also go on to recover any files that may be damaged or reinstall Windows, if required.
PC Health Check & Security	The PC Health Service is a comprehensive MOT on your PC, checking the functionality of all components, updating all of your drivers and checking the PC for viruses and other malicious software. At the end of the Health Check a report is produced to show the status of the PC and any improvements made. Our technicians will then completely clean the inside and outside of your PC.
Data Back-Up & Recovery	We will back-up and recover lost, deleted or corrupted files or documents from a system with a faulty operating system or memory device (i.e. memory card or USB device) and place them on to a CD/DVD or Hard Disk, purchased separately. Where a drive is mechanically faulty we recommend a System Overhaul.
Internet Set-Up	We will come to your home and set-up your broadband internet connection and install all necessary drivers and software to your PC. We will provide the internet router or wireless connection in addition to setting up the internet.
Telephone & Broadband	We offer a 'Which Best Buy' award winning broadband package supplied in conjunction with Utility Warehouse. With prices starting from £19.99 per month for a combined telephone/broadband package and a connection speed of up to 24MB there is no better way to surf the internet!
Peripheral Set-Up	We will set-up your printer, camera or optical drive onto your PC and then download and set-up the latest drivers for you.
PC Cleansing & Disposal	In the event that your PC cannot be fixed, we will take your old PC and remove any files or documents on the Hard Disk to protect against identity theft. This ensures your data can never be viewed again. This service is ideal if your existing PC is to be sold or disposed of.

Business IT Services

- ➔ PC Maintenance Contracts
- ➔ Network On-Site Installation
- ➔ On-Site Upgrade Installation Service
- ➔ Website Design & Hosting
- ➔ Specialised Software Development
- ➔ Printer, Camera & Optical Media Set-Up
- ➔ Telephone & Broadband Connection From £19.99
- ➔ Technical Hotline Support
- ➔ Remote Network Support
- ➔ Group Training Courses
- ➔ Document Scanning & Storage
- ➔ SAGE Accounts Book Keeping
- ➔ PC Cleansing & Disposal

Business IT Services

<p>PC Maintenance Contract</p>	<p>If you are a small or medium sized business and don't have your own IT department, then for a fixed monthly fee we will provide your business with complete support for all IT related problems and send one of our highly experienced technicians to your premises to effect repairs. All labour time is included in the fee, with parts being the only additional cost.</p>
<p>Technical Hotline Support</p>	<p>As part of our package we also offer a technical support hotline where you can call us and describe any problems you are having with hardware or software and we will talk you through resolving them.</p>
<p>Network On-Site Installation</p>	<p>We will supply and install all the equipment required for a network in your office. We will discuss your requirements with you and help decide which type of network is suitable for your needs either a cabled Local Area Network or a wireless 'Peer to Peer' network. We will then configure your PCs and install all appropriate software, including Anti-Virus, spyware protection and Internet Firewall software. We will provide this service for network both 2 or more computers.</p>
<p>Network Installation and Support</p>	<p>On configuring of your network, with your permission we will also install NetMeeting on your PCs. Netmeeting allows you to pass remote control of your PC to our technical support department, so if you encounter any problems with your PC and call us it will be like having us by your side. This is included as part of the hotline support package.</p>
<p>Website Design & Hosting</p>	<p>We will discuss the needs of your business with you during a full consultation to gain an understanding of your product and how you want to market it. Through this consultation we will develop an outline design for your website which, pending your approval, we will develop into a fully comprehensive website. We will optimise the search engine profile of your website and ensure links with all the major search engines. For a small monthly fee we will also host your existing website and assist with any periodic updates required for pricing or advertising to make sure that your website always displays your business at its best!</p>
<p>Software Development</p>	<p>If your business requires specialised software to run its operations then after a consultation of your needs our team of expert programmers will design and create an appropriate database in Access to fulfil your business needs. Anything from payroll to scheduling, customer records to stock tracking, our software can be developed to meet your needs.</p>
<p>Training</p>	<p>Having highly trained and skilled staff is one of the primary drivers of a successful business. As part of our Business Support package we can offer discounted rates on all of our training courses for your staff. We offer a range of courses, our most popular being Microsoft Word, Excel, Access, and SAGE Accounts.</p>
<p>Telephone & Broadband Service</p>	<p>With prices starting from £19.99 per month for a combined telephone/broadband package and a connection speed of up to 24MB.</p>

Training & Skills Development

Training & Skills Development

- ➔ Customised Training Courses to meet your needs!
- ➔ Computer Skills Training for Absolute Beginners
- ➔ Office & Secretarial Skills
- ➔ SAGE Accounts and Book Keeping Training
- ➔ Computer Hardware Repair Courses
- ➔ Wide range of training courses including: Microsoft Windows 7, Word, Excel, Access, PowerPoint, PhotoShop, Publisher and SAGE.
- ➔ Setting up and using the internet
- ➔ Printer and Optical Media Set-up
- ➔ PC Cleansing and Disposal
- ➔ City & Guilds Training Centre
- ➔ Keyboard Skills

<p>Computer Software Training Courses</p>	<p>We offer a range of computer software courses that are customised to meet your needs. For those who want to learn more about computers or improve their skills. We only teach on a one-to-one basis, as we feel this provides the most effective method of teaching and allows our trainers to devote all their time to you. Please see below for a selection of the training courses we offer. Our courses are delivered by our associated training college, Ashgrove College in association with London Vesta College.</p>
<p>IT Training - Complete Package</p>	<p>Nationwide Computer Services offer a complete package of training, covering all aspects of IT from understanding and using Microsoft products to setting up your PC and any peripherals such as printers, digital cameras, scanners or other devices. For those who want to learn more about using the Internet, we will also provide training courses in setting up and navigating the internet and finding the best sites for the information you require.</p>
<p>Software Training - Complete Package</p>	<p>For people who want to gain advanced knowledge of their PC and how it works, we also offer training in hardware repair and show students how to build their own PC from scratch. We offer training in a range of software packages, from teaching the basics right up to helping you develop advanced skills in all Microsoft Office products, as well as SAGE Accounting, Web design software or any other product in a training package that can be customised to your needs.</p>
<p>Technical Training - Complete Package</p>	<p>Soon we will also be offering a training package for those interested in establishing your own NCS centre; we will provide the complete package of technical training and business support. Please ask for details.</p>
<p>Work Commitments?</p>	<p>Afraid that you won't have time to complete your training around your current job? No problem! We can accommodate your training around your other commitments.</p>

New & Refurbished PCs

New & Refurbished PC's & Accessories

- ➔ Refurbished PCs From £99
- ➔ A Selection of New PCs starting from £249
- ➔ Custom Built PCs to your specification
- ➔ Experienced Staff will advise you every step of the way
- ➔ Data Back-Up & Recovery
- ➔ Internet Set-Up

We can build a Desktop PC to your specification with, either Windows 7 or XP software. We also sell new and refurbished PCs and peripherals. When you order a custom built PC it always starts off with a plan. We will ask you what you use your PC for and what you expect from it, and then from the information you provide we will design a custom machine that does everything you require.

We will use either components that you specify or, if you wish will use our experience to choose the best quality components available at the budget you specify. We prioritise the components that will make the biggest impact on performance at the lowest cost to the customer. If you would like the individuality a custom built PC offers, then give us a call or we can show all you need to know about building it yourself on one of our Computer Hardware Courses.

Contact Us & Opening Times
